

# Release Form

Westfair Water Systems, Inc will not be responsible for any plumbing issues that might arise from us by-passing the water equipment in order to retrieve a raw water sample. Westfair is also not responsible for any issues arising from the chlorination of a well including but not limited to:

- well head cap
- well pump and electronics
- appliances including washers, dishwashers, hot water heaters
- fixtures including faucets, shower heads and toilets

If a water leak arises from a broken pipe, corroded by-pass or hose bib, etc. while performing the service to obtain the raw water sample, it will be the homeowners responsibility to have it repaired.
